

## ASC REPORT: Laugardalur / Gen22

| Site info                               |                                           |
|-----------------------------------------|-------------------------------------------|
| ASC certification                       | 10.11.2020                                |
| Start of production cycle               | 2.8.2022                                  |
| End of production cycle                 |                                           |
| Report last updated                     | 25.09.2023                                |
| Estimated unexplained loss/gain         |                                           |
| WNMT                                    | 2                                         |
| Parasiticide agent used over the cycle  | Slice, Partial slice and partial salmosan |
| The benthic parasiticide residue levels |                                           |

| Wildlife interactions - overview | Number |
|----------------------------------|--------|
| Birds                            | 0      |
| Mammals                          | 0      |
| Number of escaped fish           | 0      |

| Wildlife interactions - birds |        |         |       |
|-------------------------------|--------|---------|-------|
| Date of incident              | Number | Species | Cause |
|                               |        |         |       |

| Wildlife interactions - mammals |        |         |       |
|---------------------------------|--------|---------|-------|
| Date of incident                | Number | Species | Cause |
| N/A                             | 0      |         |       |

| Wildlife interactions - Fish escapes |        |       |  |
|--------------------------------------|--------|-------|--|
| Date of incident                     | Number | Cause |  |
| N/A                                  | 0      |       |  |

| Fish health Surveillance                      |      |
|-----------------------------------------------|------|
| Suspicious Unidentifiable transmissible agent | None |
| Detection of OIE - notifiable disease         | None |

| Lice    |                                                       |             |
|---------|-------------------------------------------------------|-------------|
| Date    | Average lice number<br>(number of mature female/fish) | Temperature |
| 2022/30 | -                                                     | 10.2        |
| 2022/31 | -                                                     | 10.7        |
| 2022/32 | -                                                     | 10.2        |
| 2022/33 | -                                                     | 10.4        |
